CHITKARA UNIVERSITY

FORMATIVE ASSESSMENT-4

PROJECT DETAILS TEMPLATE

Group Name	**Team Flix**
Project Title	Part my Bills
Team Leader	Suraj Dhawan

Details of Work division		
	Student/roll no	**Work / Role Allotted**
	Suraj Dhawan /2010993588	HTML, JavaScript and Project Management
	Rahul Grover /2010990569	HTML, CSS and Login Page
	Tushar Arora /2010993594	HTML, JavaScript and Project Idea
	Himanshi /2010991884	Design and Content, Login Page

High level Approach to be followed: • Share the details in points	• We added a Split Calculator which splits the bill in equal amount. • User can add as many members as required to split the total amount.
Lower level Approach to be followed: • Share the details in points	• We here share the total amount paid by respective individual into equivalent proportions, so that it is easy for our users to split the bill as it is totally automated.
Advantage of the project with applicability: Highlight the unique feature(s) of the project if any	• Economically feasible ,free to use • Easily accessible • Bill Splitter • Accuracy • User Friendly

Schedule for implementing the use case: • Share the Tentative Date of Completion of Expected Deliverables		
	Deliverable	**Expected Date of Completion**
	Team Creation and project determination	2 day
	Creating all in one view of website and basic layout.	4 days
	Making Website interactive using Scripting	4 days

	Organizing various web pages and linking them	3 days
	Designing Part	4 days
	Final touch and testing	4 days
	Total Days	21 day
Future scope of the project ● Share the details in points	In future it can be used for group of friends as it calculates the optimal number of Transactions, and even supports multiple subgroups, since usually not everyone shares the same costs.
